## Drug-Free World, India celebrates a year of making a difference

Thank you for working with us towards a drug free world. DFW India, is a 100% volunteer-run, non-profit, cross-country project actively disseminating the Truth About Drugs. Since it's inception last year, we have touched over 1,25,000 thousand lives through our booklets, lectures, seminars, education programs, and newsletters. We associated with schools,

college and academies, impacting the young lives. Renowned governments bodies like the Delhi Police and Narcotics Control Bureau have supported our endeavours. We work with all communities and sections for a wide scale impact. Recently, the Delhi Sikh Gurudwara Management Committee has endorsed and encouraged us in our mission towards a drug free India.

DFW, India has grown into an enthusiastic movement involving individuals, students, parents, NGOs, government institutions in Delhi NCR, Rajasthan, Punjab, Haryana, Tamil Nadu, Madhya Pradesh, Goa, Hyderabad-Telangana, Kerala, Gujarat, and Orissa, with the support of selfless and motivated volunteers who have done this entirely free of cost or charges.

Ours is a social cause, which belongs to each and every citizen, every group and agency in India. We all believe that the pervasive drug-culture has almost entirely overtaken and perverted the cultures of our heritage-rich country. This is because the youth are not given the Truth and they fall prey to all the false data they get from the dealers, media, and uninformed friends.
